

# County Clerk Website Now Provides Older County Election Canvass Results

The Montgomery County Clerk's office recently announced that all Election Canvass Results from 1980 to current have now been scanned and posted by staff to the County Clerk website at [www.montgomeryco.com/countyclerk/elections/results.php](http://www.montgomeryco.com/countyclerk/elections/results.php).

Election Canvasses digitized include all General Primary Elections and General Elections held in even years and Consolidated Elections held in odd years. Canvass results provide official Precinct Level results for each Election held during that timeframe.

"We often receive request for information about Elected Officials and their term lengths," Montgomery County Clerk/Recorder Sandy Letiheiser stated, "so we are pleased to provide this important Montgomery County Election history on our website so those who are interested may have easy access."

Those needing assistance navigating the Canvass results on the website are encouraged to contact the County Clerk's office at (217)532-9530 or by email at [sandyletiheiser@hotmail.com](mailto:sandyletiheiser@hotmail.com).
